EHR IN PRACTICE

# ORACLE HEALTH EHR (FORMERLY CERNER AMBULATORY EHR)

# EXTENDED PROFILE

ORACLE Health

## OVERVIEW

Oracle Health (formerly Cerner) EHR is built for and designed by physicians to provide practices of all sizes with fully functional medical software across specialties.

The solution allows physicians and practice staff to access patient information and perform workflows on mobile and tablet devices and supports voice dictation. All the workflows in Oracle Health EHR are customizable and support more than 55 different medical specialties.

## SIMPLIFIED PATIENT RECORD ACCESS

The platform builds upon the Cerner charting system, using a “chart search” function that reduces time spent seeking information. Boasting a user-friendly dashboard, Oracle Health provides secure access to patient records.

It includes ePrescribe, nCode, electronic lab requisition, and results analysis, which are designed to save time when making a diagnosis and reduce the possibility of human error.

The scheduling system is designed with administrative staff and patients in mind to be as user-friendly as possible.

## IS THERE A DEMO OF ORACLE HEALTH EHR?

There is a demo video available for Cerner EHR on this profile using the demo button. The updated version, featuring an improved user interface, patient portal, administrative platform, and AI functionality, is still facing rollout delays.

## DOES IT HANDLE MEDICAL BILLING?

Yes, the software's billing system is a feature of their EHR and is integrated with their software.

## FEATURE OVERVIEW

- ✔ Patient Demographics
- ✔ Patient Portal
- ✔ Scheduling
- ✔ Appointment Management
- ✔ Billing Management
- ✔ Medical Templates
- ✔ Document Management
- ✔ Clinical Workflow
- ✔ EM Coding
- ✔ Referrals
- ✔ Insurance and Claims
- ✔ Lab Integration
- ✔ Patient History
- ✔ Reporting and Analytics
- ✔ Voice Recognition
- ✔ Patient History / EMR
- ✔ e-Prescription
- ✔ E&M Coding
- ✔ Insurance & Claims
- ✔ Reporting / Analytics
