EHR IN PRACTICE

IKNOWMED EHR EXTENDED PROFILE

ontada®

OVERVIEW

iKnowMed EHR is a web-based electronic health record system built for oncology practices.

It offers point-of-care treatment support, mobile access, and a secure patient portal to streamline workflows and improve patient engagement.

Part of McKesson’s technology solutions and powered by Ontada’s real-world data, iKnowMed supports evidence-based cancer care from diagnosis to treatment and follow-up.

TRANSITION FROM INTEGREAT EHR TO IKNOWMED

After McKesson acquired MED3000 (and InteGreat EHR) in 2013, it sold its small-practice EHR and management lines.

In 2017, McKesson sold its Enterprise Information Solutions division, including products like Paragon, to Allscripts (now Veradigm and Altera Digital Health). This marked the end of McKesson’s EHR offerings for hospitals and small practices.

InteGreat was discontinued, with users redirected to iKnowMed, a specialized oncology EHR and part of Ontada, a McKesson business.

InteGreat is no longer supported or developed by McKesson and exists only in legacy data and former deployments.

KEY FEATURES

- **Web-based & mobile-optimized access:** Providers can access patient charts from almost any device, ensuring care continuity in the clinic or on the go.
- **Comprehensive decision support:** Integrates NCCN-powered Value Pathways and clinical guidelines into workflows, suggesting evidence-based treatments when needed.
- **Digital patient engagement:** A secure portal allows patients to view health records, message providers, and access educational resources. Over 1.5 million patients use it nationwide.
- **Practice analytics:** Built-in tools analyze clinical, operational, and financial data to provide insights, track quality, and benchmark performance.
- **Real-world data integration:** iKnowMed contributes to and uses real-world evidence through Ontada, supporting oncology research and regulatory submissions with aggregated, de-identified data.

FEATURE OVERVIEW

- ✔ Patient Demographics
- ✔ Scheduling
- ✔ Appointment Management
- ✔ Medical Templates
- ✔ Document Management
- ✔ Clinical Workflow
- ✔ EM Coding
- ✔ Patient History
- ✔ Reporting and Analytics
- ✔ Voice Recognition
- ✔ e-Prescription
