EHR IN PRACTICE

RXNT EHR

EXTENDED PROFILE

OVERVIEW

RXNT's fully integrated, HIPAA-compliant and ONC-certified Electronic Health Records (EHR/EMR) software is designed to improve clinical outcomes, streamline practice and patient workflows, and optimize the patient care experience for physician practices and healthcare groups of all sizes and specialties—from solo providers to multi-specialty clinics with many locations.

Our clinical EHR software includes features like secure health record management, real-time prescription history, integrated lab results, patient portal, AI-powered ambient listening, telehealth with Videobridge, EPCS-enabled E-Prescribing, electronic referrals, and mobile apps for Android and iOS devices for providers and patients. Patients benefit from the ease of the Patient Portal—schedule appointments, send secure messages, review lab results, sign documents and forms, and pay bills online.

With new artificial intelligence technology, users have access to streamlined Encounter Insights from signed patient visits, and can easily record patient visits and create notes with Ambient IQ. Predictable, transparent pricing includes free setup, training, support, mobile apps, and more. Every product is backed by 24/7 cloud-based access, premium in-house support, and regular system upgrades.
