CENTRALREACH EXTENDED PROFILE

CentralReach

OVERVIEW

CentralReach is more than just a software company. It is a team of experienced clinicians specializing in ABA, Speech Therapy, Occupational Therapy, and Early Education, with over 100 years of combined experience.

They are dedicated to providing their clients with the training, implementation, and support needed to deliver exceptional care.

Their main offering is an end-to-end, AI-powered platform designed to facilitate ABA, speech, occupational, and related therapies across home, school, and clinical environments. The platform integrates scheduling, billing, clinical data collection, and reporting within a HIPAA-compliant system.

WHAT IS THE DIFFERENCE BETWEEN CENTRALREACH AND CENTRALREACH ESSENTIALS?

CentralReach and CentralReach Essentials are both designed for applied behavior analysis (ABA) therapy providers, but they cater to different practice sizes and needs.

CentralReach is a comprehensive platform for larger practices, while CentralReach Essentials, formerly known as Behaviorsoft, is designed for smaller practices, startups, and those with fewer than 50 employees..
