

# NEXUS EHR

# EXTENDED PROFILE

## OVERVIEW

Nexus EHR (from Nexus Clinical) is an ONC-certified, cloud-hosted electronic health record designed for practices of all sizes.

The platform emphasizes specialty templates, integrated practice management and billing options, telehealth, e-prescribing (including EPCS via NewCrop), patient self-service (portal and kiosks), and reporting tools. Implementation, training, and ongoing support are provided by Nexus Clinical.

## KEY FUNCTIONALITY

- Cloud-based, device-agnostic EHR: Access via browser or tablet.
- Specialty-specific templates (Family Medicine, General Surgery, Neurosurgery, etc.)
- Medical billing/claims: Configurable superbill, fee schedules, and claim workflows; Nexus offers a separate integrated billing solution.
- E-prescribing & EPCS (partnered with NewCrop for controlled substances).
- Telehealth integrated into scheduling and visit workflows.
- Patient engagement: Portal, appointment requests, payments, and self-service kiosks.
- Integrations/add-ons: eFax, DICOM imaging, payment processors (Stripe, Clover), and third-party voice-to-text/transcription integrations (per site descriptions).
