EHR IN PRACTICE

INSYNC EHR

EXTENDED PROFILE

QUALIFACTS™
insync

OVERVIEW

InSync EHR by Qualifacts is an intuitive and scalable EHR platform designed to meet the needs of healthcare organizations of all sizes and specialties.

Whether you manage a behavioral health practice, an outpatient clinic, or a multi-specialty group, InSync provides tailored solutions to streamline workflows, enhance patient care, and simplify administrative tasks.

The InSync EHR platform is trusted by providers across diverse fields, including mental health, substance use treatment, physical therapy, and speech-language pathology.

Its user-friendly interface and customizable features make it a popular choice for physicians seeking an efficient way to manage scheduling, billing, documentation, and compliance all in one platform.

CONFIGURABILITY

Qualifacts InSync stands out for its flexibility and ability to meet the unique needs of healthcare providers. With features like telehealth, electronic prescribing, and compliance tracking, it helps reduce administrative tasks so providers can focus on patient care.

InSync is fully configurable, enabling customized workflows and tailored dashboards. During implementation, Qualifacts' team collaborates to set up solutions specific to each practice's needs.

For behavioral health providers, InSync offers tools specifically designed for therapy notes, treatment plans, and medication management. These features simplify complex workflows, ensuring providers spend less time on documentation and more time supporting their clients' well-being.

MOBILE-FRIENDLINESS

The platform simplifies scheduling and billing for multi-specialty practices, enabling smooth operations and accurate financial reporting. InSync uses MVC technology, allowing access on any desktop or mobile device. This provides full functionality, allowing teams to work from anywhere.
