EHR IN PRACTICE

PRACTICE EHR EXTENDED PROFILE

PracticeEHR
Simplifying Healthcare

OVERVIEW

Practice EHR is an integrated electronic health record (EHR) and practice management (PM) system. The software is customizable for almost thirty medical specialties including chiropractors, podiatrists, pain management, family medicine, urgent care, and psychiatrists. The core features of Practice EHR include electronic medical records, medical billing, patient scheduling, and RCM services. These applications are available as part of one integrated suite. Users also have access to e-prescribing, lab integration, procedure workflows, narrative reports, tablet PC support, a patient portal, and ONC-ATCB certification. Eligibility inquiry, claim scrubbing, and workers' compensation claims are designed for practices that choose to utilize the medical billing application. Practice EHR is an entirely cloud-based solution. It is accessible via mobile devices and remote desktops.
