EHR IN PRACTICE

PRACTICE BETTER EXTENDED PROFILE

practice better

OVERVIEW

Practice Better is a comprehensive practice management platform tailored to meet the needs of wellness professionals, including dietitians, nutritionists, naturopaths, and other health practitioners. Designed with user-friendly tools and integrations, the platform aims to simplify client management, streamline administrative tasks, and foster better client relationships through its robust client portal and scheduling software.

The platform is highly regarded for its versatility, making it a popular choice for both solo practitioners and larger naturopathic or wellness clinics. Practice Better empowers practitioners to focus on client care by offering tools for appointment management, document sharing, billing, and workflow automation.

AI CHARTING

The AI Charting Assistant is an add-on for Practice Better that streamlines telehealth and Zoom 1:1 sessions by automatically recording, transcribing, and summarizing them.

It offers three summary styles - narrative, outline, and SOAP notes, allowing practitioners to choose the format that best fits their documentation needs.

Summaries and action items can be directly incorporated into your existing note templates, facilitating streamlined documentation and follow-up.

WHO USES PRACTICE BETTER?

Practice Better is primarily used by wellness professionals, including:

- **Dietitians and nutritionists:** To manage clients, create meal plans, and track client progress.
- **Naturopaths:** For handling holistic treatment plans and managing clinic workflows.
- **Health coaches:** To organize group coaching programs, individual sessions, and track client engagement.
- **Therapists:** To facilitate scheduling, note-taking, and secure client communication.

It is also suitable for solo practitioners, small clinics, and larger practices looking for robust, cloud-based practice management software.

IS THERE A FREE VERSION?

Yes, there's a free 'sprout' plan for students and recent graduates. It provides essential tools to manage up to three clients, ensuring compliance with HIPAA and PIPEDA standards.

WHAT IS THE DIFFERENCE BETWEEN A FREE TRIAL ACCOUNT AND A SPROUT ACCOUNT?

The Sprout Plan is a free, limited-feature plan for students and recent graduates, while a free trial account offers full access to paid features for 14 days, suitable for evaluating the platform's comprehensive capabilities.

Those who opt for the team plan are eligible for a 30-day free trial.
