EHR IN PRACTICE

SIMPLEPRACTICE EXTENDED PROFILE

SimplePractice

OVERVIEW

SimplePractice is a comprehensive, cloud-based electronic health record (EHR) and practice management platform designed to streamline administrative and clinical workflows for health and wellness professionals.

Serving over 225,000 practitioners, it offers a suite of features tailored to various specialties, including mental and behavioral health, occupational therapy, and more.

TRANSITION FROM LUMINELLO

In August 2023, SimplePractice announced a strategic agreement to acquire key assets of Luminello, an electronic medical record and practice management platform serving thousands of solo and small-group mental health professionals, including psychiatrists, psychiatric nurse practitioners, psychologists, and other prescribing clinicians.

To support Luminello users during the transition, SimplePractice has provided dedicated resources and guidance to ensure a smooth and seamless migration process.

COMPLIANCE AND SECURITY

The platform is HIPAA-compliant and has achieved HITRUST CSF® Certification, demonstrating adherence to key regulations and industry-defined requirements.

SimplePractice has also received Payment Card Industry (PCI) Data Security Standard certification as a Level 1 service provider, ensuring secure handling of payment information.
