EHR IN PRACTICE

4D EMR

EXTENDED PROFILE

4D EMR

OVERVIEW

4D EMR is a cloud-based EMR system for plastic surgery, cosmetic surgery, medical spas, dermatology, and other high-volume aesthetic practices.

Developed by a practicing plastic surgeon, its intuitive interface aligns with medical office workflows. It allows physicians to manage consultations, documentation, imaging, inventory, and scheduling.

Key features include appointment scheduling, inventory tracking, membership management, and point-of-sale integration. The system also includes client engagement tools from booking to checkout. Users can chart with customizable templates, track treatment plans, and use automated patient reminders.

4D EMR is accessible on any device via Chrome or Safari. The system is HIPAA-compliant, emphasizing the security and privacy of patient information.

It has transparent month-to-month pricing without long-term contracts, annual maintenance fees, or extra charges for additional users or workstations.
