

# OFFICE ALLY EHR 24/7 EXTENDED PROFILE

## OVERVIEW

Office Ally's EHR 24/7 is an intuitive, web-based EHR for practices that want core charting and documentation without buying into a heavier enterprise system.

The EHR integrates with add-ons for e-prescribing, patient reminders, secure messaging, patient intake, and the Patient Ally portal, so buyers are really evaluating a connected workflow rather than a charting tool in isolation. That can simplify operations for some practices, but it also means the true value depends on which add-ons you require and how tightly you want billing, scheduling, and clinical work to sit together.

Small and independent practices praise EHR 24/7 for its straightforward navigation, useful macros for repeat note entry, and the convenience of handling claims, billing, and notes in-platform.
