EHR IN PRACTICE

HINT

EXTENDED PROFILE

hint health

OVERVIEW

Hint, from Hint Health, is a direct primary care software that helps membership-based and cash-pay practices manage the business and clinical sides of care.

KEY FUNCTIONALITY

It includes membership management, billing, scheduling, patient communication, EMR/charting, and reporting, while also supporting employer-sponsored and plan-based direct care models.

The platform also extends beyond core practice management with an app-and-partner marketplace, employer and health-plan workflows, and integrations that connect Hint to the rest of a clinic’s stack.

For example, Hint can integrate patient information with Elation Health to reduce administrative burden; key details like demographics, membership status, insurance, and provider assignments sync automatically because updating a patient's information in one system reflects in the other.

Hint is segmented into two layers:

1. **Hint Core**, which focuses on scaling direct care through membership-specific tools, billing automation, reporting, and the Hint Success team.
2. **Hint Clinical**, which integrates EMR, practice management, patient communications, and membership management. Startups get 1 month free post-launch.

Practices select only what they need while still keeping memberships, payments, and core workflows connected.

Users praise Hint's intuitiveness, the time saved by using the platform, and Hint Health's strong support options. However, some note friction around the mobile experience and restrictions around marketplace integrations

Sunrise Pediatrics
June 2026
Jenna Jackson
Hi Jenna, confirming Ava's 5-year well-child visit Thursday at 10 AM. She's due for a few routine vaccines too.
Yes! I have a couple questions about her sleep and starting kindergarten.
Of course — we'll go through the kindergarten readiness checklist and take care of her vaccines then.
Perfect, thank you! See you Thursday.
Team Note
Print the kindergarten readiness checklist before Thursday's visit

Wednesday
Hi Jane, looking forward to our next visit. Did you get a chance to stop by Quest to get your labs done?
Yes! Went in this morning — they said the results should be over to you in 2–3 days.
Perfect. I'll review everything as s
it together on Thursday.
Today
Hi Jane, Simon here! Once your labs are reviewed
together your nutrition plan for the month ahead.
